Professional Summary

Full Stack MERN Developer with hands-on experience building scalable web applications, SaaS platforms, and client projects using React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Skilled in developing responsive user interfaces, RESTful APIs, JWT authentication systems, state management, and cloud deployment. Experienced in delivering production-ready applications and currently working as a Software Developer Intern while pursuing a Bachelor of Computer Applications (BCA). Passionate about building efficient, secure, and user-focused software solutions.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, Zustand, Responsive Design

Backend: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, CRUD Operations, MVC Architecture

Cloud & Deployment: AWS EC2, Nginx, Firebase, Vercel

Tools: Git, GitHub, Postman, VS Code, Figma

Concepts: MERN Stack, API Integration, State Management, Performance Optimization, Agile/Scrum

Experience

Software Developer Intern

Jul 2025 – Present

Bridgeon Solutions, Calicut, Kerala

- Developed responsive web applications using React.js, TypeScript, Tailwind CSS, and modern JavaScript.
- Built reusable and scalable UI components to improve development efficiency and maintainability.
- Integrated frontend applications with RESTful APIs and backend services.
- Collaborated on backend development using Node.js and Express.js.
- Improved application performance, responsiveness, and user experience across multiple devices.

Projects

Zinda Learn — E-Learning Platform (Live Client Project)

zinda-learn.com

Tech Stack: React.js, TypeScript, Node.js, Express.js, MongoDB, AWS EC2, Nginx, JWT

- Developed a production-ready e-learning platform for real users with role-based access for Admins, Instructors, and Students.

- Built course management, enrollment workflows, learning progress tracking, and dashboard systems.
- Developed scalable REST APIs and integrated frontend applications with backend services.
- Implemented secure JWT authentication and authorization mechanisms.
- Deployed and maintained applications on AWS EC2 using Nginx reverse proxy.
- Optimized application performance and responsiveness across desktop and mobile devices.

Baeby — E-Commerce Platform

Live Demo

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, JWT

- Developed a full-stack e-commerce application using the MERN stack.
- Implemented secure authentication and authorization using JWT.
- Built product, user, cart, and order management modules.
- Designed and developed RESTful APIs following MVC architecture principles.
- Created responsive and user-friendly interfaces using Tailwind CSS.
- Structured the application for scalability, maintainability, and performance.

Education

Bachelor of Computer Applications (BCA)

Aug 2025 – Aug 2028

Indira Gandhi National Open University (IGNOU)

Leadership & Volunteering

National Service Scheme (NSS) Volunteer

Jun 2023 – Mar 2025

- Participated in community development, social service, and awareness initiatives.
- Collaborated with teams to organize volunteer activities and public engagement programs.

Languages

English (Professional Proficiency)

Malayalam (Native)

Arabic (Intermediate)
